Work Experience

Stock Knocks (10/22 to 03/2023)

- Developed responsive and user-friendly web applications using Reactjs Typescript Material ui to enhance the user experience.
- Collaborated with cross-functional teams to design and implement interactive features, ensuring seamless integration with backend systems.
- Optimized website performance by identifying and resolving front-end issues, resulting in improved loading speed and enhanced SEO rankings.

Academy of skills development(11/21 to 01/2022)
- Developed an innovative Online Code Compiler utilizing ReactJs and Nodejs, enabling the execution of
- Java, Python, C, C++, and PHP programming languages Integrated

Skills

☆ **C** ☆ **HTML** ☆ **CSS** ☆ **JAVASCRIPT** ☆ **TYPESCRIPT** ☆ **REACTJS** ☆ **REDUX** ☆ **NEXTJS**

☆ **MATERIAL UI** ☆ **BOOTSTRAP** ☆ **TAILWIND CSS** ☆ **MONGODB** ☆ **EXCEL**

Personal project

☆**Youtube clone-** Using(Reactjs,tailwind Css) website link

- Use rapid api of youtube so easily play videos and when user search content they
- get videos related to search and play same as youtube video player we can see views
- like and comments in videos.

☆ **Food web** - using (Reactjs,Redux,Css,Material Ui) website link

- The food item have shown and when user click on add   to cart button than items will be
- added in cart and user see the food details and so it is completely responsive Ui design.

☆ **Todo list** – using (React js,Css,Bootstrap)

- Add Your daily activity and easily save it in your local Storage. And if you want to remove
- your task than easily   remove them. Fully responsive

☆ **CRUD(**Create,Read,Update,Delete)- Using (React Js, Bootstrap)

- we can Create id name and email id, And easily read update data and also delete it   Store
- data in Mock Api and also save in local storage. Dark Mode is also available

☆ **Payemt Gateway Integration** Using (HTML, CSS)

- There will be a simple donate button on homepage. On clicking the donate button, the user
- will land on the payment page where user can select the amount to be Paid Once the
- payment is done email will be sent to the   User.

☆ **Weather Report** - Using(React js,Bootstrap) Search city name and get live temperature with the help of Api to show data
